One Year FREE Replacement
Reemplazo SIN COSTO por un año
Remplacement GRATUIT pendant un an

Manufactured for Qiantan, Inc., Livestock, IL 62462
Made in China Fabricado en China

Unique Construction

Heavy duty plates store more energy and provide longer run times. Special standby construction allows the battery to last longer in standby operation

Powerful

Very high reserve capacity; runs the Basement Watchdog sump pump systems intermittently for days. Compatible with all Basement Watchdog Backup and Combo systems

Reliable

Accommodates the Basement Watchdog sump pump fluid sensor which sounds an alarm when water is needed

Easy to Fill

Fluid sold separately

You will also need to purchase battery fluid to activate the battery.

Big Standby Battery

Features and Benefits

- Designed to be discharged and recharged for use with battery backup sump pump systems, marine, or RV applications
- Lasts longer and performs better than automotive or deep cycle batteries
- Provides days of intermittent backup protection
- Accommodates the fluid sensor designed for Basement Watchdog batteries. Fluid sensor is not compatible with other brands of batteries
- 1-year free replacement warranty

Compatibility

- The Basement Watchdog Big Standby Battery is compatible with all Basement Watchdog Combo or Backup sump pump systems

Preparing the Basement Watchdog Standby Battery

The Basement Watchdog Big Standby battery is shipped dry and vacuum sealed to retain freshness. Unlike other batteries, the Big Standby battery will have 100% life when you are ready to install it. Activating the battery is done by simply adding the 6 qt. battery fluid pack (sold separately). Instructions are provided inside the carton. An electronic version and an instructional video are available online at www.BasementWatchdog.com. Once the fluid is added, it will reach 85% charge within 15 minutes. The remaining charge is put in by the Basement Watchdog backup sump pump system. Basement Watchdog batteries are the only batteries that will accommodate the fluid sensor allowing the backup pump controller to sound an alarm when distilled water is needed.

Fluid sold separately

Basement Watchdog Sump Pump Run Times

* Based on 10% duty cycle. Run times may vary based on inflow of water
