The Basement Watchdog Big Combo Connect Benefits:

- **Pre-assembled** Basement Watchdog Combination sump pump system is easy to install
- Designed to provide both primary and battery backup pumping capabilities, giving you ultimate protection and peace of mind
- The primary pump will operate as long as it is receiving AC power
- The backup sump pump will begin pumping automatically if the power is interrupted, or more water is coming into the sump than the AC pump can handle
- The backup system has unique monitoring features that diagnose a problem and sound an alarm
- The backup system monitors battery, battery fluid, power and pump conditions
- The built in USB data port and remote terminal can be connected to a Basement Watchdog Connect Module or other device to send an alert of a possible problem or required maintenance when away from home

This system includes:

- 1/2 HP energy efficient primary pump w/ caged dual float switch
- Basement Watchdog Special CONNECT backup sump pump system w / dual float switch
- Battery box
- Battery cap w/ hole to accommodate the fluid sensor
- (2) check valves
- Rubber union
- "Y" connector
- (2) cable ties

Key Features

Battery Fluid Sensor

- Sensor measures battery fluid level
- When distilled water is needed, the controller will sound an alarm
- The fluid sensor is designed for Basement Watchdog batteries, and it is not compatible with other brands of batteries

Dual Float Switches

- Both Basement Watchdog pumps have two redundant floats on each switch
- Should one float fail to activate the pump, the second float takes over
- The result... 4 times the protection for added reliability

Connected Pump

Connected Pump System

Communicate with your pump while away from home and be notified of the current status with Basement Watchdog Connect®. We give you flexibility to Connect the way you want.

This system includes:

- USB Data Port for connection to optional Basement Watchdog Connect® Modules
