

PRE-ASSEMBLED 1/3 HP Primary Plus Battery Backup Sump Pump System

Model No.
DFK961

Pre-assembled Protection:

- 2 Pumps - Primary and Backup
- 2 Dual Float Switches
- Backup from Power Outages

Primary Pump

1/3 HP

Pumping Capacity

3720 GPH
3100 GPH at 10' lift

Backup Pump Capacity

2000 GPH
1000 GPH at 10' lift

Primary Pump Construction

**Cast Iron/
Cast Aluminum**

Watching Out for You!

The Basement Watchdog Combo Connect Benefits:

- Pre-assembled Basement Watchdog Combination sump pump system is easy to install
- Designed to provide both primary and battery backup pumping capabilities, giving you ultimate protection and peace of mind
- The primary pump will operate as long as it is receiving AC power
- The backup pump will begin pumping automatically if the power is interrupted, or more water is coming into the sump than the AC pump can handle
- The backup system has unique monitoring features that diagnose a problem and sound an alarm
- The backup system monitors battery, battery fluid, power and pump conditions

This system includes:

- 1/3 HP energy efficient primary pump w/ caged dual float switch
- Basement Watchdog Special CONNECT backup sump pump system w / dual float switch
- Battery box
- Battery cap w/ hole to accommodate the fluid sensor
- (2) check valves
- Rubber union
- "Y" connector
- (2) cable ties

Key Features

Battery Fluid Sensor

- Sensor measures battery fluid level
- When distilled water is needed, the controller will sound an alarm
- The fluid sensor is designed for Basement Watchdog batteries, and it is not compatible with other brands of batteries

Dual Float Switches

- Both Basement Watchdog pumps have two redundant floats on each switch
- Should one float fail to activate the pump, the second float takes over
- The result... 4 times the protection for added reliability

Compatible Batteries (Sold Separately)

Basement Watchdog Wet Cell Standby Batteries

- Run our sump pump intermittently for days
- Last longer in standby operation
- Accommodate the important battery fluid sensor

30HDC140S or BW-30F

24EP6 or BW-24F

Basement Watchdog Maintenance Free AGM Standby Battery

- No need to add battery fluid or distilled water
- Run our sump pump intermittently for days
- Last longer in standby operation

BW-27AGM

Installation

Easy Installation

1. Cut discharge pipe and remove old unit
2. Position combination unit in sump pit and connect unit to discharge pipe with rubber union
3. Connect backup controller to the battery

System can fit in a small sump pit - 12" in Diameter x 14"
