**Features**

- Pumps up to 37 GPM at 0 ft. with a 1-1/4” flexible plastic hose or 24 GPM at 0 ft. lift with garden hose
- Automatic switch turns utility pump on and off
- Pumps water down to 1/4”
- Built-in air relief valve prevents air locks
- Includes multi-purpose adapter fitting for 1-1/4” flexible sump pump discharge hose
  - 45° angle prevents hose kink at pump connection
- Removable intake screen for easy cleaning of debris
- 10 ft. power cord
- 1 year limited warranty

**Setup Guide**

- Attach and tighten included hose adapter to utility pump
- Attach garden hose or 1-1/4” flexible plastic hose – sold separately
- Pump activates at a minimum depth of 1-3/4” of water
- Pump automatically turns off when there is approximately 1/4” of water remaining

**Materials Needed:**

- Garden hose or 1-1/4” flexible sump pump discharge hose

**Applications**

The Basement Watchdog Automatic Utility Pump can be used in a variety of areas including:

- Wet basements
- Window wells
- Pool covers
- Boats
- Other areas that can collect water

**Limitations:**

- Do not install as a permanent fixture or as a sump pump
- Do not use as a fountain or pond pump

**Pump Performance**

**Pump Performance with 1-1/4” Flexible Plastic Hose**

- GPM (Gallons per minute) 24
- GPH (Gallons per hour) 1,440

**Pump Performance with Garden Hose**

- GPM (Gallons per minute) 24
- GPH (Gallons per hour) 1,440

**Pump Highlights**

1. **Energy Efficient Permanent Split Capacitor (PSC) Motor**
   Uses less electricity, without sacrificing performance
   Only draws 2.5 Amps!

2. **Handle with Power Cord Holder**
   Lessens the strain on the power cord

3. **Air Relief Valve**
   Prevents Air Lock

4. **Multi-Purpose Adapter Fitting:**
   - Connects utility pump to 3/4” garden hose or 1-1/4” flexible sump pump discharge hose
   - 45° angle prevents hose kink at pump connection

5. **Intake Screen**
   Removable for easy cleaning

6. **Power Cord**
   10 Ft.
